

WE'RE LIKE PEAS IN A POD

Like you, we were formed in response to the liability insurance market crisis of the mid-1980s. Like you we're dedicated to providing critical coverages and outstanding service to our markets. Like you, we know our markets better than anyone else. We are so much alike – just like peas in a pod.

NAMICO was created to provide D&O and E&O to members of the National Association of Mutual Insurance Companies. If your company is an RRG, no matter the corporate form, we can provide these critical coverage solutions and the same outstanding service you deliver to your own policyholders.
